

Alfred
MILLER
FIELD SERVICES

Save Time and Save Costs—
The Alfred Miller Way

We are a *constructor* with over 70 years' experience. We focus on reducing man-hours—not piling on more. We offer a comprehensive array of Field Services utilizing our hallmark innovations and cost-savings methods on all jobs we touch.

- Fireproofing
- Industrial Coatings and Linings
- Concrete Repair
- Hazcom Labeling
- Grouting
- Concrete Flat Work
- Firestopping
- Blast Upgrades
- Engineered Structural Repairs
- Shotcrete

**SAVE TIME.
SAVE COSTS.
SAVE
THE DAY!**

We apply Lean Construction methods, technology and Advance Work Packaging (AWP) / Workface Planning to improve productivity, safety, and quality. Utilizing the Construction Industry Institute's AWP best practices, we are able to improve labor productivity by up to 25%, while cutting overall costs by up to 10%, along with World Class safety performance.

"It was a pleasure working with you and I really appreciate the work you guys did especially with coming to the site to field-verify the dowel locations before casting. That really made everything go smoothly."

- Technical Services, McDermott

THE FUTURE OF BUILDING STARTS HERE

WE DO MORE WITH
FEWER MAN-HOURS TO
IMPROVE
PRODUCTIVITY
USING OUR INNOVATIONS
RIGHT HERE IN AMERICA

Philip Miller / *President*

Alfred Miller Companies has been America's Leader in Fireproofing, Buildings, Precast, and Field Services for over 70 years.

Born and bred in the Downstream Oil and Chemical Construction industry, Alfred Miller Companies shreds the trend of building petrochemical plants with a massive amount of manpower. Our automation, technology, and lean construction management principles are the better solution for labor shortages.
