

Alfred  
**MILLER**  
**FIREPROOFING**

The Complete Fireproofer

## Intumescent - Cementitious - Concrete

Some fireproofers do only shop work. Others do only field work. Some do only lightweight cementitious, epoxy intumescent, or concrete. We do all of the above and we coordinate it, giving you a single point of responsibility for all shop and field fireproofing. This lets you avoid problems between the shop applicator and field applicator over the size of field connections.

You won't have to manage fireproofing—we ensure it happens in a fluid, coordinated way. We can even store your fireproofed steel and sort it and ship it to you in erection order, thereby skipping the onsite laydown yard.

**WE  
FIREPROOF  
MORE STEEL  
THAN ANYONE ELSE  
IN NORTH AMERICA.**

## DID YOU KNOW?

- We built the highest producing, climate-controlled fireproofing plant in the USA, featuring two Moving Buildings that travel 1,200 feet over the steelwork—instead of moving the steelwork, itself. We can process over 6 acres' worth of steel at any time around the clock—in any weather—while our single-shift capacity is well over 10,000 sq. ft. of fireproofing per day.
- The U.S. Patent and Trademark Office has recognized Alfred Miller Companies' technological innovations through issuance of the following patents: U.S. Patent No. 9,140,005, U.S. Patent No. 9,540,813, and U.S. Patent No. 7,143,555.
- We completed the largest fireproofing job in U.S. LNG construction history.

# THE FUTURE OF FIREPROOFING STARTS HERE

WE DO MORE WITH  
FEWER MAN-HOURS TO  
IMPROVE  
PRODUCTIVITY  
USING OUR INNOVATIONS  
RIGHT HERE IN AMERICA

**Philip Miller** / *President*

Alfred Miller Companies has been America's Leader in Fireproofing, Buildings, Precast, and Field Services for over 70 years.

Born and bred in the Downstream Oil and Chemical Construction industry, Alfred Miller Companies shreds the trend of building petrochemical plants with a massive amount of manpower. Our automation, technology, and lean construction management principles are the better solution for labor shortages.
